

Our Philosophy

Kristident Company is one of the most important Russian Manufacturer of disposable material in dentistry that helps to make the everyday work in clinics more comfortable, efficient and safer.

Our mission is to provide each clinic with the best quality products. For this reason, we are always looking for Innovation and new solutions.

Kristident started its production of medical and cosmetic products for dental professionals and patients since 2010 introducing a "new era" of high competitive products made-in-Russia that represents a very attractive alternative to the European ones.

Kristident was the first company to launch in Russia the Polyethylene Patient Apron production line, which marked its starting point on the way of success.

Our Milestones

- Customer/consumer-oriented policy
- Uncompromising quality
- modern and continuous research and development processes
- High production capacity
- Attractive wholesale prices
